Re: Wilburn Industries, Inc.  
Westerville, Ohio

Dear Ms. Searcy:

On behalf of our client, Wilburn Industries, Inc. applicant for a permit to construct and operate an FM broadcast station on Channel No. 280A at Westerville, Ohio (File No. BPH-911230MC), there are submitted herewith an original and two copies of an amendment to its application.

Please direct any inquiry concerning this submission to the undersigned.

Very truly yours,

Eric S. Kravetz

Re: Wilburn Industries, Inc.

AUDIT SERVICES

Please correct the January 28, 1992 Amendment of Wilburn Industries, Inc. to show that the source of terrain data shown on Page 5 of Section V-B was the information for Station WBBY which presently is on file with the Commission.

The average heights of the radials were not recomputed when the predicted distances to the station's service contours were determined for an ERP of 2.52 kilowatts.

January 29, 1992

Dear Sirs;

My firm has been retained by Wilburn Industries, Inc. to assist in the preparation of the FM Broadcast Engineering Data in their amended application for Channel 280A in Westerville, Ohio.

Amendments for their application were filed on January 28, 1992.

I would like to change the response to question 19 on page 17 to read as follows: "Terrain data was taken from the file for WBBY currently on record with the Federal Communications Commission."

Cordially yours,

John M. McKinley, President

Ohio Broadcast Consultants, Inc.
